

## M6 / M58 ORRELL FOOTBRIDGE, WIGAN

Replacement footbridge after the demolition of the original footbridge providing public footpath access across the slip-road at J26 of the M6/M58 after being hit by a HGV.

CLIENT HIGHWAYS ENGLAND VALUE £1.3M (OVERALL £1.6M) CONTRACT NO. CP1057

Works order through Highways England CWF Framework for General Civil Engineering in HE Area 10. The scheme involved construction of new single span steel truss footbridge, reinforced earth approach ramps, site clearance, removal of existing foundations, earthworks, new concrete bridge foundations including micro piles, installation of steel parapets / handrails, surfacing, drainage works and associated TM and PR liaison. 24/7 working, with the majority of works undertaken at night. AEY also undertook the role of Principal Contractor (PC) for other CWF Specialist partners.
